ABOUT US

InterGrain is a world class plant breeding company currently experiencing significant growth. Our mission is to deliver profitable wheat and barley varieties for Australian growers. The role of Commercial Seed Coordinator is a mix of data management, hands on warehouse work, and physically demanding field work. If you like rolling up your sleeves as well as using your brain to get the job done, then we want to hear from you

EXPERIENCE

We are seeking a candidate that has a passion for the Agricultural industry but who is also mechanically minded, adaptive and good at problem solving.

This role will involve working with wheat and barley both on farm and in our processing facility. It needs someone who can show initiative when things don't go according to plan and work together in a team environment. You will be expected to be flexible and work within all areas of our business throughout the year. This role is a mixture of indoor and outdoor work and some travel and longer hours and weekend work would be required over busy periods.

Please address the following selection criteria in your application:

- Passion for Australian agriculture
- Tertiary qualifications in plant science or agriculture
- Knowledge of plant physiology (especially cereals)
- High computer literacy essential, especially in Excel and databases
