ABOUT US

InterGrain is a world class plant breeding company currently experiencing significant growth. Our mission is to deliver profitable wheat and barley varieties for Australian growers.

THE ROLE

Would you like to work in a company that is innovative & dynamic? Where your opinion matters? Do you have a love of beer and a desire for quality? A leader in Cereal Breeding, InterGrain is entering an exciting period of growth and is looking for an enthusiastic recruit to join the team.

InterGrain is seeking a Barley Laboratory Technician to be located in Bibra Lake WA. This position supports a plant breeding program. You will assist with all aspects of laboratory and field operations.

Responsibilities:

- Prepare samples from field trials for processing through the InterGrain malting quality laboratory
- Conduct malting quality analyses of barley samples for the InterGrain barley breeding program
- Commission and ensure the maintenance of equipment within the laboratory
- Manage collation, storage and manipulation of data arising from barley quality analyses
- Contribute to a culture of continuous improvement in methods and procedures within the InterGrain quality laboratory.
