## ABOUT US

---

InterGrain Pty Ltd is a world class plant breeding company currently experiencing significant growth. Our mission is to support the competitive advantage and sustainability of the Australian agriculture sector by delivering market leading wheat, barley & oat varieties.

We are currently searching for our next Lead Glasshouse Technician to take our Glasshouse facility to the next stage. This is an exciting role for an innovative person.

---

## THE ROLE

The role of Glasshouse Lead will work closely with InterGrain Breeders to lead our existing team of three staff, and report to the Operations Manager.

The role is a mix of high level forward planning and hands on work to support the team. Our ideal candidate will be responsible for overseeing all operations relating to the glasshouse production of wheat and barley populations for the breeding programs along with general glasshouse maintenance.

Previous experience crossing cereal crops is highly desirable. The individual will work closely with breeders to develop high level strategies in areas such as pest management automation and labour efficiencies. You must be innovative, collaborative and flexible with a drive to make our glasshouse processes and facilities world class.

We are looking for an experienced and enthusiastic individual with a love of agriculture and plant propagation.

# GLASSHOUSE LEAD

- Leading Australian Cereal Breeder
- Vibrant working environment with a strong team culture
- Opportunity to make a difference
- Location Bibra Lake WA

Our ideal candidate is someone who can engage and motivate a team to succeed through their outstanding leadership skills.

This role requires excellent problem solving skills and someone with the ability to find solutions in a high pressure environment with strict time frames and outputs.

You will provide high level input to the design of InterGrain's new glasshouse and early generation advancement facilities. You will have the ability to develop strategies that reduce early generation cycle times and lead the establishment of oat crossing program.

---

## SELECTION CRITERIA

- Passion for Australian agriculture
- Experience as a team member with developing strategies/business cases
- Tertiary qualifications in plant science, agriculture or able to demonstrate a similar level of experience
- Knowledge of plant physiology and propagation (ideally cereals)
- Previous experience crossing cereals is an advantage
- High computer literacy essential, especially in Excel and data bases
- Experience with agricultural chemical application. Chemcert is considered advantageous
- Exceptional attention to detail and demonstrated experience in forward planning, organisation and time management
- Experience in dealing with suppliers and managing stock supply
- Knowledge and experience in plant breeding or field based agricultural research is an advantage
- Commercial nursery experience advantageous
- Excellent oral and written communication skills
